

# DAIRY CREAMERY

## GATE FOR DAIRY STABLES.

One Shown in the Illustration is Considered the Best.

A dairyman says he has seen many kinds of gates used to prevent stock from going where they are not wanted but considers the one shown in the illustration by far the best. Instead of swinging upward and being hooked to the ceiling of a joint overhead, as some do, it slides back and forth upon a length of gas pipe serving as a track by means of iron straps attached to the long pieces that compose the outer ends of the gate. The gas pipe should be at least two inches through and its length twice the

SLIDING GATE FOR STABLE. width of the gate. The gate should be made to fit the place where needed and can be constructed of any strong, light lumber.

If the feed room is in easy reach of the stable the alley leading to it should by all means be protected by one of these gates. In case of a cow getting loose in the night, as cows frequently will, it might be the means of saving her life from eating too much grain.

### Cost of Milk.

At the last meeting of the New England Holstein Breeders' association one of the speakers asked the question as to how many dairymen present knew the cost of production of a hundred pounds of milk. But four hands were raised. And yet farmers ignorant as to what it costs them to produce their milk output will complain that the milk dealers fix the prices of the product. The dairy farmer is in the business of manufacturing milk. The manufacturer to be successful must know not only what the completed article costs but the cost of every part. With this knowledge he can cut out the unprofitable and keep that which is profitable. So with the dairyman. He must know what it costs to produce the milk and then he must be ready to unite with other dairymen in holding for a price which will give a fair profit. But until milk producers have a definite knowledge what their product costs them, they are in no condition to organize or to hold together if they do attempt organization.

### Cutting the Feed.

Next to the silo as a means of securing best results with the corn plant comes shredding or putting through an ordinary feed cutter dry. Either is better than feeding whole stalks, which means so much waste. Something of a concentrated nature must be fed with any kind of roughage to secure a profitable milk flow in winter. After experimenting with nearly every known food of this nature I have found this to be one of the best: Wheat bran, two parts, by measure; corn and cob meal, one part; gluten meal, one part. Mix and give four or five quarters twice a day to each cow giving full flow of milk; less to those partially dry, says a successful dairyman—Farmers' Home Journal.

### No Money It Average Yields.

Mr. B. D. White, expert in dairying of the Bureau of Animal Industry, says that in some of the "dairy States" the average yield of butter per cow is less than 150 pounds per annum, when it is possible, under quite ordinary conditions, with grade cows of dairy breeds to produce double that amount, or three hundred pounds. "This is considerable less than one pound a day. Evidently, he says, there is plenty of room for improvement. By proper selection, care, feed and breeding of dairy cows, the output of dairy products can be doubled without increasing the number of cows now in the country.

### Points in Dairy Breeding.

You may train a man to be a good dairyman and improve his methods and practices, but to make a real, successful breeder of dairy cattle he must have a natural love for his cattle and be able to see many of the changes that are not visible to the average person. The natural stock breeders are the ones to whom we must look for the fuller development of our herds. It is to these men that we look when we want to buy a herd-head of pronounced excellence of breeding.

### Oats Help Calves.

Give the calves you are raising on skim milk a little grain feed regularly and watch them grow. A few handfuls of oats do not cost much and the calves pay for it well. It keeps the bowels in condition and puts on sound meat and bone.

The most successful dairymen are those who are willing to begin with small capital and work up.

## Notes and Comment

Of Interest to Women Readers

### PORTABLE WARDROBES.

Easily Put Up and Cover Protects Clothing From Dust.

During the vacation season particularly, people will appreciate the value of the portable wardrobe designed by an Illinois man. Returning from vacations spent in two-by-four rooms, with no closets, the advantage of the invention here presented looms large. In the first place, there is a grooved bracket, with hooks by which it may be quickly screwed fast to the wall. A shelf hinged to the bracket fits into the groove and along the bracket

under the shelf and on the bottom of the shelf are rows of hooks on which to hang clothing. Depending from the shelf and inclosing the clothing is a large bag which effectually protects the garments from the dust and other dirt that is bound to accumulate. For persons who travel to any extent, or who summer in resorts where room is at a premium, one of these portable wardrobes will be found invaluable. When folded for carrying they occupy very little space in the trunk.

### A DINNER FOR TO-DAY.

#### Cream of Peas.

Blend together one large tablespoon of butter and one of flour. Add two cups of cold milk. When mixed and smooth add one can of peas. Season to taste. Put a tablespoon of whipped cream in each plate. Serve with toasted crackers.

#### Meat-Baked Ham.

Select a nice slice of ham and put in a shallow baking dish and cover with milk and bake in a moderate oven until milk is all boiled away and ham is browned.

**Vegetables—Steamed Cabbage.** Cut cabbage same as for sauerkraut. Add three slices fat bacon cut up in small pieces. Fry out until brown. Put cabbage and bacon in frying pan, add one-quarter cup vinegar, cover with water, season with salt and pepper to taste. Cover closely in frying pan and steam moderately for two hours.

**Desert—Apple Fritters with Sauce.**

Sift together one and a third cupful of flour, two teaspoonfuls of baking powder and one-fourth teaspoonful of salt, a grating of nutmeg, then beat into this two-thirds cupful of milk and one egg. When a smooth batter has been secured add two sour apples, pared, cored and cut into small pieces. Drop by dessert spoonfuls into deep, smoking hot fat until a golden brown, then serve with a lemon or currant jelly sauce.

### Heads Suffragists.

Mrs. Carrie Chapman Catt, who was re-elected president of the Woman's International Suffrage Alliance, is the widow of George W. Catt, a wealthy contractor who died in 1905.

Mrs. Carrie Chapman Catt.

She has been identified with woman suffrage for many years, having been state lecturer and organizer of the Iowa Woman's Suffrage association from 1890 to 1892. Her home is at 2 West Eighty-sixth street, New York City.

Mrs. Catt has lectured in practically every state of the union for woman suffrage and has written much on the subject. She was born in Ripon, Wis., and after being graduated from the State Industrial College of Iowa took a course in law. For a time she was principal and general superintendent of schools in Mason City, Ia.

**CLASSIFICATION AND APPRAISEMENT.**—The undersigned, duly appointed and qualified Appraiser of Mercantile Taxes for the year 1910, makes the following classification and appraisal of vendors of merchandise.

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

## GENUINE CASTORIA ALWAYS

Bears the Signature of

*Chas. H. Fletcher*

## The Kind You Have Always Bought

In Use For Over 30 Years.
